

Graduate Policy on Animal Subjects

As part of their right to academic freedom, graduate course instructors at UC Merced reserve the right to grade students on the basis of hands-on work with living organisms and biological materials, in accordance with all applicable ethical standards and laws. Students must be informed of course requirements and grading policies at the beginning of each graduate course, but graduate course instructors are not required to provide alternate assignments if students object to assignments that require hands-on work with living organisms and biological materials.
