**Explanations of the different types of decisions.**

a. **Approve**– the proposal will advance to the next step. Entering a comment is optional when selecting Approve

b. **Reject**– the proposal will return to the previous step. A comment will be required when choosing this decision.

c. **Hold** – Submits a request to a system administrator for the proposal to not advance in the approval process. A comment will be required when choosing this decision. If approved, the proposal will remain on the current step until the hold is released by an administrator; the participant(s) on the step can continue to edit the proposal. If the Administrator rejects the request, the proposal will remain on the current step awaiting a decision.

d. **Suspend** – Submits a request to a system administrator for the proposal to not advance in the approval process. A comment will be required when choosing this decision. If the Administrator rejects the request, the proposal will remain on the current step awaiting a decision.

e. **Cancel** – Submits a request to a system administrator to cancel the proposal and delete it from Curriculog. If the administrator approves the cancel request, the proposal will be referred back to the originator. The originator may then re-launch the proposal or cancel it, which will delete the proposal from Curriculog. If the Administrator rejects the cancel request, the proposal will remain on the current step awaiting a decision.
