 - A. The White House Office of Science and Technology Policy (OSTP) Request for Public Comment on Draft Desirable Characteristics of Repositories for Managing and Sharing Data Resulting From Federally Funded Research

From the [Federal Register](#): “OSTP is seeking public comments on a draft set of desirable characteristics of data repositories used to locate, manage, share, and use data resulting from Federally funded research. The purpose of this effort is to identify and help Federal agencies provide more consistent information on desirable characteristics of data repositories for data subject to agency Public Access Plans and data management and sharing policies, whether those repositories are operated by government or non-governmental entities. Optimization and improved consistency in agency-provided information for data repositories is expected to reduce the burden for researchers. Feedback obtained through this Request for Comments (RFC) will help to inform coordinated agency action.”
